1. Review policies and training videos.
2. Review location of equipment and supplies
3. Successfully complete both written quizzes.

Suggested Instructors: Captain shall assign

Quick Codes: Tag Out/Lock Out: 35-11.09
MSDS: 35-11.10

-MEDICAL-

1.

EMT Peer / Case Review – Jan. 26th

Smullin Center 0900 to 1100

Quick Codes: Med; 95-40A Trauma; 95-30A

-EQUIPMENT-

1.

Self Contained Breathing Apparatus

At the conclusion of this training the member shall be able demonstrate basic SCBA knowledge and skill as outlined in the objectives.

“A” Shift CP instructs Drill Jan. 18th & WC Jan 25th

Objectives: Demonstrate

1. Identification and Location of SCBA components.
2. Donning and doffing the SCBA – Setup 2.7
3. Using SCBA in Emergency Operations
3. Maintenance, Inspection & Cleaning – Setup 2.9

Instructor: Captain Shall Assign

Quick Codes: Setups: Equip: S2.27 Maint. S2.29

Donning: S2.7 & Emergency Use: S2.8

-DISTRICT-

1.

District Board of Directors Meeting – Jan. 20th @ 1700

-RESCUE-

1.

Fire Victim Search & Rescue in Limited Visibility

At the conclusion of this training the member shall be able to demonstrate the necessary skills to conduct a search and rescue operation for fire victims in limited visibility.

Objectives:

1. Demonstrate Search & Rescue skills in limited visibility.
2. Demonstrate removal of fire victims using various carries and drags
3. Demonstrate assisting down firefighters with the 2 In / 2 Out staff.
4. Demonstrate conserving air and breathing using the Bypass Valve.

Instructor: Shift Captain

Quick Codes: SCBA in Emerg: S2.8; Search & Rescue: 05-10.01 & .02; Down Firefighter; 15-16.05A Conserving Air: 15-16.05B & C Carries & Drags; S4.17

2.

Rapid Intervention Team (RIT)

At the conclusion of this training the member will be able to demonstrate search and rescue procedure using search line techniques and use and operation of the RIT Bag. This training should be accomplished prior to the scheduled RIT exercises. Shift Captains should attempt to coordinate with each other and conduct combined training.

Objectives:

- 1. Review District Methods Manual on RIT.
- 2. Review use and operation of the RIT Bag.
- 3. Search & Rescue and Search Line techniques

Instructors: Shift Captain shall assign

Quick Codes: Policy: (MM 1.0(E)) 36-14.13

RIT Pack: S4.18 Rope: S4.19 & S4.20 Search: S4.14 & .15

-FEBRUARY 2005-

-RESCUE-

1.

Rapid Intervention Team – Multi-Company

At the conclusion of this training the member shall be able to demonstrate three techniques that may assist in their personal rescue and those of fellow firefighters.

CP, EP and WC report to Training Grounds by 1900 hrs.

Shift	Date	Vol. Station Standby	Assist
B	Feb. 15th	EP to WC & CP & GH	AL & WC
C	Feb. 22 nd	AL & WC & CP	DB & EP

Objectives: As outlined by the instructor

Instructor: As Assigned

Quick Codes: Rescue: S4.15 Equip: S4.18 - .20

-MEDICAL-

1.

Environmental Emergencies

At the conclusion of this class the member shall be able to describe three effects and treatments for Cold and Thermal Disorders.

Objectives:

- 1. Personal and scene safety.
- 2. Thermoregulation, generation and loss and assessment.
- 3. Pathophysiology Heat Cramps, Exhaustion and Stroke.
- 4. Signs and symptoms of heat & cold emergencies.
- 5. Treatment for the five thermal disorders.

Instructors: Captain shall assign

Quick Codes: 92-49.01

2. **Cardiac Arrest & Mega Code Practices – EMT B & I**
At the conclusion of this training the member shall be able to demonstrate proper use of the AED & Manual Defibrillators in the treatment of Shockable & Non-shockable patients.

Objectives:

1. Personnel safety & protection.
2. Location and operation of both the SAD / AED and manual defibrillators.
3. Review and apply local Standing Orders for Cardiac Arrest treatment.
4. Provide hands-on practice using patient scenarios for both shockable and non-shockable cardiac arrests that include;
 - a. BLS
 - b. Airway Management
 - c. Drug Administration
5. Post Resuscitation Care

Instructor: Shift Paramedic

Quick Codes: 85-42.01, .40 & 95-40.30

3. **EVALUATIONS – EMT Basic & Intermediate**
After a brief presentation on each subject the EMT Basics & Intermediate will successfully complete the assigned evaluations. *Records show that many are in need of these evaluations.*

EMT Basic Evaluations:

1. Patient Assessment – Medical
2. Trauma Assessment & Spinal Immobilization
3. Airway Management
3. Medication Administration
3. Cardiac Arrest / AED

EMT Intermediate Evaluations:

1. Patient Assessment – Medical
2. Trauma Assessment & Spinal Immobilization
3. Airway Management (adjuncts & Combi-tube)
4. IV / IO
5. Medication Administration
6. ECG Interpretation
7. Cardiac Arrest / AED & Manual Defibrillator

Evaluator: Shift Paramedic

Quick Codes: 77-02.01

4. **EMT Peer / Case Review – TBA**

Quick Codes: Med; 95-40A Trauma; 95-30A

-SUPPRESSION-

1.

Ladder Company Operations

At the conclusion of this class the member shall be able to demonstrate operation, use, and working with the new Ladder Tip Discharge port on 7720. Shift Captains work together so each shift completes this training.

Objectives:

1. Review safety considerations for operating from 7720.
2. Demonstrate proper and safe ladder placement.
3. Review the tactical benefits for using the Truck.
4. Appliance & hose needs for attack and extended line.
5. Demonstrate safely advancing Hotel Packs up the ladder.
6. Demonstrate safety advancing 3" hose up the ladder.
7. Demonstrate safely advancing appliances up the ladder.
8. Conduct various attack operations utilizing both methods.

Suggested Instructors: Captain

Quick Codes: Truck Ops: S2.6 Ladders: S2.5 & S2.3
Extended Line: S1.22 Working from: S1.26

-DISTRICT-

1.

District Board of Directors Meeting – Feb. 17th @ 1700

-MARCH 2005-

-SUPPRESSION-

1.

Rapid Intervention Team – Multi-Company

At the conclusion of this training the member shall be able to demonstrate three techniques that may assist in their personal rescue and those of fellow firefighters.

CP, EP and WC report to Training Grounds by 1900 hrs.

Shift	Date	Vol. Station Standby	Assist
A	Mar. 15 th	EP to WC & CP	GH & SV

Objectives: As outlined by the instructor

Instructor: As Assigned

Quick Codes: Rescue: S4.15 Equip: S4.18 - .20

2.

Large Scene Fire Operations – All Companies

At the conclusion of this training the company shall be able to perform as a member of Multiple Company exercise.

Shift: "A" Mar. 11 "B" Mar. 9 "C" Mar. 10

All Stations Report to the Training Facility by 0845 hrs

Objectives:

1. First on-scene Size-up & establish Incident Command.
2. Resource considerations, additional alarm assignments.
3. Perform Fire Ground Tactical Priorities
4. Straight & Reverse 5" Water Supply – Setup 1.13 & .14
5. Extended Attack Lines - Exterior stairs – Setup 1.22
6. Advancing tools, equipment & hose packs.
7. Advancing Vertical Ventilation tools and equipment.
8. Ladder Pipe Operations with supply – Setup 1.18

Suggested Instructor: Battalion

Quick Codes: Size-up: 15-13.06, .07A - .07E

Tactical: 15-41.11, 35-14.01; Water Supply: S1-13 & S1-14

Extended Line: S1-22 Ventilation: 15-09.03 & .04

Ladder Pipe: S1-18

2.

Emergency Scene Size-up & Action Plan Implementation

At the conclusion of this training the member shall be able to demonstrate scenario based emergency scene size-up, develop a plan of action and allocate resources.

Objectives:

1. Review Methods Manual 1.0 & 8.10
2. Review the elements of scene size-up.
3. Review analyzing an emergency scene.
4. Review the Incident Command system.
5. Development of an Action Plan.
6. Demonstrate size-up and action plans using various scenarios.

Instructor: Shift Captain

Quick Code: Policy: 36-10.03; Tactics:15-13.06 - .07E

Strategy & Tactics: 35-14.01-.05A

-DISTRICT-

1.

District Board of Directors Meeting – Mar. 17th @ 1700

-MEDICAL-

1.

Neurological Assessment EMT - B, I & P

At the conclusion of this training the EMT shall demonstrate assessment & treatment skills for the neurological patient.

Objectives:

1. Demonstrate personal safety and protection.
2. Assess orientation to person, place, event and time.
3. Determine the patient's Glasgow Coma Score.
4. Assess the patient's motor functions
5. Assess head, ears, eyes, nose and throat

Suggested Instructors: Shift Paramedic

Quick Codes: 91-22.24 & 95-44.01

2.

Respiratory Systems, Basic & Advanced Assessment & Treatment

At the conclusion of this training the member shall be able to describe the basic anatomy of the respiratory system and demonstrate respiratory patient assessment and treatment.

Objectives:

1. Anatomy & Function
2. Assessment of the dyspnea patient
3. Airway adjuncts
4. Suctioning, devices and use
5. Oxygen devices & administration
6. Treatment of disease and trauma airway emergencies
7. Advanced airway adjuncts and skills

Instructor: Shift Paramedic

Quick Codes: Assess: 91-22.09 Resp: 95-41.01

3.

District ACLS Class – March 1, 2005

White City Classroom 0730 to 1700

Instructor: Captain Slawson

4.

EMT Peer / Case Review – TBA

Quick Codes: Med; 95-40A Trauma; 95-30A
