

WILDLAND FUELS REDUCTION TRAILER

Fire District 3 wants to help you keep your property safe from fire. Having a defensible space around your home that is free of flammable vegetation is one of the best things a homeowner can do to protect their home from a wildfire.

To help residents create a defensible space around their home, the Fire District has a trailer available for residents to assist in hauling off their flammable vegetation. After a free wildland home assessment is completed, residents can request the trailer be delivered to their property. Once loaded by the resident, the trailer will be hauled off and emptied for free.

Please call us to schedule your free wildland home assessment and to schedule the wildland fuels reduction trailer for your property!

Fire District 3
8383 Agate Road
White City, OR 97501

GETTING STARTED

- The wildland fuels reduction trailer is available free of charge to Fire District 3 residents.
- Residents must have a wildland home assessment prior to requesting the trailer. Call (541) 826-7100 to request a free wildland home assessment.
- After a wildland home assessment has been completed, the resident can call (541) 826-7100 to schedule the wildland fuels reduction trailer.
- Once the trailer is loaded by the resident, it will be picked up and dumped free of charge. (Drop-offs and pick-ups are on Mondays and Thursdays).
- We can only take woody limbs and branches up to 9" diameter such as shrub/tree clippings, leaves, pine needles.
- We CANNOT accept any treated wood, lumber, railroad ties, root wads, dirt, rock, or trash of any kind.
