EXECUTIVE REPORT

Fire Chief Horton shared that he worked with the Tactical Athletes that Jeff Griffin spoke about and was excited to see the collaboration with the Oregon Fire Chief's Association. Horton also recognized a La Pine student who was visiting the District today.

Horton shared that he represented the District at the Capital.

Horton shared the District completed its first high school student academy with four students completing the academy. Designed to showcase the fire service and give a broader spectrum of public safety and exposure to working for public service. Three of the four students have enrolled in the RCC fire science program and have been picked up as student firefighters across the valley. The fourth student will attend OSU focusing on fire investigation. Horton recognized Administrative Assistant Heather Sears and her efforts organizing the program.

Horton shared the District helped sponsor the Rogue Girls Camp driven through Ashland Fire. Firefighter Allyson Morris did an extraordinary job participating in the female lead instruction to the all-female participants. This was a three day mini-academy.

Horton shared that Pacific Power has a plan in place to avoid powerline related fire problems by shutting off the power in surrounding communities. The District will be involved in the notification. Pacific Power has committed to opening resource centers in the event they need to shut down power and hope to offer a 48 to 72 hour advance notice.

Horton shared that the District hosted a Community Care Summit on June 10th inviting people from around the region to share experiences, brainstorm trends, opportunities, and challenges as it relates to providing out of hospital care. Intent was to capture thoughts as the District looks at a program that we can implement that can benefit our community. Horton and Chief Bates have reached out to various partners in the community for help with the program.

Horton shared he will be out of town next week.

OPERATIONS

Administrative Assistant Sears shared that the Technical Rescue Team assisted with a rescue at Crater Lake on June 10th. The District's TRT did a great job assisting in the successful rescue.

Sears shared that two of the resident volunteers from the Sams Valley station will be moving out at the end of the month.

TRAINING AND SAFETY

Division Chief Blakely shared that Captain James Carroll from Fort Lauderdale Fire presented the Direct on Scene Education, DOSE program, focusing on how to help prevent Sudden Infant Death Syndrome, SIDS. Firefighter Kelly Harrington attended the train the trainer course and will be training the rest of the District in August. This was in partnering with the Children's Advocacy Center and Asante.

Blakely shared the District participated in the triennial airport exercise which is a mass event involving all responding partners that takes place every three years. The District also participated in an active shooter event at North Medford High School. This event is to help all responders speak the same language and have a successful command post.

FIRE AND LIFE SAFETY

Deputy Chief Patterson shared the District continues to see industrial expansion as well as two new residential subdivisions in White City.

Patterson shared the District has developed a close relationship with Jackson County Code Enforcement. While doing inspections, the District has found marijuana and hemp companies moving into buildings and working without permits. The District is working to help the growers to be compliant and safe.

Patterson shared that during the Expo Boomfest, the District will offer an area where people can bring their own Oregon legal fireworks as well as enjoy the Boomfest in a safer environment.

STRATEGIC SERVICES

Deputy Chief Bates shared that part of the Target Solutions enlists a program called TrackIt that allows the District to keep track of all apparatus and equipment and electronically do the daily checks. This is currently in the testing phase for each career engine.

Bates shared the new Facilities and Logistics person is currently in the background phase of the process. Engineer Tom Kerley is doing the background. This person will replace Dusty when he retires this summer and Dusty will train on institutional knowledge. The District is looking at a July 15th start date.

Bates shared the idea of a fuels reduction trailer he received at a conference he went to in Reno. This program helps District residents who may not have resources available to get rid of flammable vegetation around their home. The trailer would be available upon request and will tie into the

District home inspection program. Residents would need to first call the Fire and Life Safety Department. Rogue Disposal and Biomass are partnering with the District for the disposal of the vegetation. The District received the trailer today and will get it ready for the program.

Bates shared that there is a group working on the continuation of clearing the back part of Expo property where the Penninger fire was last year. Many different agencies are involved including the City of Central Point. The group would like to duplicate the effort around the rest of the greenway as well however it is proving problematic due to the many different ownerships. Director Leavens offered the idea of continuing the education of the area and what happens when fire comes through.

GOOD OF THE ORDER

Chief Horton shared a photo from Crater Foundation Scholarship and the Rogue Girls Fire Camp.

Horton shared a thank you letter from the supervisory park ranger from Crater Lake speaking to rescue assistance. Horton was very impressed with how well everyone worked and integrated without ever training together.

Horton shared a letter of accommodation by BC Calhoun for Resident Volunteer/Firefighter Jordan Bates showcasing the great work Jordan had done on fully involved passenger vehicle fire.

Horton shared an email about Deputy Fire Marshal Mark Northrop who demonstrated great service and respect to an older resident of the District.

INDIVIDUAL BOARD MEMBER COMMENTS

Steve Shafer commended Chief Horton and all the staff. He knows how firefighters are about safety, the fact that we have such a great insurance rate is reflective of you guys. Kudos, that's awesome.

Bill Leavens thanked Steve Shafer for explaining the hierarchy of fire stations, etc. SCBAs and TRT acronyms are lost on him.

Cindy Hauser was touched by letter that the woman wrote. We lose sight that there are people who are probably lonely and don't have any connections. There are people who really appreciate what we do. Also, two of her students made it into the fire academy.

Harvey Tonn stated the budget is so well done and we can understand it. We don't tell you that enough, nice job Stacy. John and Justin and the team working on the new station, good job. We are looking forward to seeing the ground start changing.

Our next meeting is July 18, 2019.

Board of Directors and Fire Chief
Jackson County Fire District No. 3
8333 Agate Road
White City, OR 97503

I am pleased to confirm my understanding of the services I am to provide Jackson County Fire District No. 3 for the year ended June 30, 2019.

I will audit the financial statements of the governmental activities, business-type activities, and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of Jackson County Fire District No. 3 as of and for the year ended June 30, 2019. Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement Jackson County Fire District No. 3's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of my engagement, I will apply certain limited procedures to Jackson County Fire District No. 3's MD&A in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I will not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

1. Management's Discussion and Analysis

I have also been engaged to report on supplementary information other than MD&A that accompanies Jackson County Fire District No. 3's financial statements. I will subject the following supplementary information to the auditing procedures applied in my audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and I will provide an opinion on it in relation to the financial statements as a whole in a report combined with my auditor's report on the financial statements:

1. Schedule of District's Proportionate Schedule Share of Net Pension Asset
2. Schedule of District's Pension Plan Contributions
3. Schedule of the District's Single-Employer OPEB Liability
4. Schedule of PERS RHIA OPEB Plan
5. Notes to the Required Supplementary Information
6. Budgetary Comparison Schedule - General Fund
7. Notes to Budgetary Comparison Schedules
8. Detail to Budgetary Comparison Schedules for the General Fund
9. Budgetary Comparison Schedules for the Capital Projects Fund
10. Schedule of Property Tax Transactions

The following other information accompanying the financial statements will not be subjected to the auditing procedures applied in my audit of the financial statements, and my auditors report will not provide an opinion or any assurance on that other information:

1. Introductory Section
2. Statistical Section

Audit Objective

The objective of my audit is the expression of opinions as to whether your basic financial statements are fairly presented, in all material respects, in conformity with generally accepted accounting principles, and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. My audit will be conducted in accordance with auditing standards generally accepted in the United States of America and will include tests of the accounting records and other procedures I consider necessary to enable me to express such opinions. I will issue a written report upon completion of my audit of Jackson County Fire District No. 3's financial statements. My report will be addressed to the Board of Directors of Jackson County Fire District No. 3. I cannot provide assurance that unmodified opinions will be expressed. Circumstances may arise in which it is necessary for me to modify my opinions or add emphasis-of-matter or other-matter paragraphs. If my opinions on the financial statements are other than unmodified, I will discuss the reasons with you in advance. If, for any reason, I am unable to complete the audit or am unable to form or have not formed opinions, I may decline to express opinions or may withdraw from this engagement

Audit Procedures-General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, my audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. I will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the District or to acts by management or employees acting on behalf of the District.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because I will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by me, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards. In addition, an audit is not designed to detect immaterial misstatements, or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, I will inform the appropriate level of management of any material errors, any fraudulent financial reporting, or misappropriation of assets that come to my attention. I will also inform the appropriate level of management of any violations of laws or governmental regulations that come to my attention, unless clearly inconsequential. My responsibility as auditor is limited to the period covered by my audit and does not extend to any later periods for which I am not engaged as auditor.

My procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. My audit will include obtaining an understanding of the District and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. However, during the audit, I will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, I will perform tests of Jackson County Fire District No. 3's compliance with provisions of applicable laws, regulations, contracts, and agreements. However, the objective of my audit will not be to provide an opinion on overall compliance and I will not express such an opinion. I will, however, determine if Jackson County Fire District No. 3 has complied substantially with appropriate Oregon legal provisions and will report such in the report "Independent Auditor's Report Required by Oregon State Regulations."

DIRECTOR CODE OF ETHICS

Relative Information: The term “Ethics”, used in its broadest form, refers to a set of moral principles. Not every individual within an organization has the same perception of ethical conduct. People base their decisions on experience, personal values, and learned behavior. A “Code of Ethics,” as used in this policy, refers to the general rules of conduct the Board recognizes in respect to governance of the District. This code of ethics is intended to serve as a guide for Board Directors.

The Board is committed to excellence in leadership and decision-making that results in the highest quality of service to its residents and taxpayers.

It is the Board of Director’s intent to review and re-adopt this policy annually in the month of July.

1. The Board will follow all regulations and laws related to the conduct of District business. It will also honor its own adopted policies and procedures. Knowing the law is the starting point of effective governance.
2. The Board recognizes the dignity, values, and opinions of one another, staff members, employees, and the general public. It will encourage responsiveness and effective participation in all its communications.
3. The Board recognizes its primary responsibility is the formulation and evaluation of policy and the employment of a Chief Executive Officer (Fire Chief) to administer District business at the direction of the Board.
4. The Board recognizes that operational matters of the District should ordinarily be directed to the Fire Chief and Staff.
5. The Board commits to conducting all meetings in accordance with the Oregon Public Meetings laws. It recognizes that District business is to be conducted in public with the exception of specific topics that meet the criteria for Executive sessions.
6. The Board will focus on issues and seek solutions that are in the best interest of the public and avoid issues of personality and/or special interests.
7. The Board, both as a body and as a group of individuals will support decisions made by the Board. Individual Directors may disagree with a certain decision but should support the position as the considered opinion of the Board. This position is not intended to restrict further consideration based on additional information but to provide for the effective continuation of District business.
8. The Board will work directly with the Fire Chief and Staff to obtain information and/or an enhanced understanding to improve effective decision making.
9. The Board should direct any complaint and/or issue directly to the Fire Chief. It is the responsibility of the Fire Chief to resolve the issue as may be necessary.
10. Board Directors, to the greatest extent possible, will forward business items to either the Board President or the Fire Chief for inclusion in a Board of Directors meeting agenda. The goal is to provide public notification of the issue and to allow time for the Staff and other Board Directors to research/consider the topic.
11. The Board recognizes it operates as a unit and that individual Board Director authority exists only as a member of the whole.

12. The Board acknowledges that policy decisions require Board action. When an individual Board Director receives a policy related question, the response must be based on established policy. The question may be brought to the full Board for further consideration. When such questions arise, the topic should be forwarded to the Board President and/or Fire Chief for inclusion in a Board of Directors meeting agenda.
12. The Board recognizes effective operations require a team approach. The Board, Fire Chief, and Staff members are expected to work together in a collaborative process assisting each other in the conduct of District business.
13. The Board recognizes the value of long-term planning and interaction with other agencies and will constantly maintain a focus on the long-term stability of the District and service to its residents and taxpayers.
14. The Board will be courteous and responsive to citizen requests and will generally direct their concerns and interests to the Fire Chief as appropriate.
15. The Board as a body, and as a group of individuals, acknowledges that information and study foster good decision making and will commit the necessary effort to develop a working understanding of all issues that come before the Board.
16. The Board acknowledges that conflict or differences of view could arise between members and will seek effective remedies that are in the best interest of the Board and the District.
17. The Board will seek legal counsel when indicated and will be guided by the legal advice provided.
18. The Board acknowledges that conflicts of interest may occasionally arise and that each Board member is responsible to declare such actual or potential conflicts as specified in Oregon Revised Statutes and/or Oregon Administrative Rule.

Policy Statement: It is the policy of the Board of Directors to annually review and adopt this Code of Ethics policy.

DIRECTOR CONFLICT OF INTEREST

Relative Information: The state laws related to conflicts of interest were established in 1974. The laws are now known as “Government Ethics.” They are included in Oregon Revised Statutes (ORS) Chapter 244. Directors, Board Appointees (Budget Committee & Civil Service), District employees, and District volunteers are Public Officials as defined by the law.

In essence the laws require public officials to disclose any situation that could be either a potential or actual conflict of interest. An **actual conflict of interest** may arise when a public official takes official action that **would** financially impact the official, a relative or an associated business. A **potential conflict of interest** may arise when a public official takes official action that **could** financially impact the public official, the official’s relatives, or a business with which the public official or a relative is associated. The standards for disclosure and subsequent action depend on whether the circumstance in question is an actual or potential conflict.

The Board, in its desire to ensure all business decisions are made in full disclosure and compliance with the law, has implemented the practice of requiring Directors to annually submit an individual Statement of Acknowledgment concerning conflicts of interest. This process is designed to refresh Board member’s knowledge of the State of Oregon Government Ethics laws and does not relieve the Board member from declaring an actual/potential conflict before participating in any official action throughout the year.

Policy Statement: It is the policy of the Board of Directors that all District members comply with the Oregon Ethics laws and may not request, accept, or take advantage of any preference that could result in financial gain or avoidance of financial detriment due to their association with the District.

It is further the policy of the Board of Directors that each Director submits an annual Statement of Acknowledgment in July addressing any known or anticipated conflicts of interest that may exist. Any time an unanticipated actual or a potential conflict situation occurs Board members must report it in public session.
