

FIRE DISTRICT 3

JACKSON COUNTY, OREGON

CENTRAL POINT - WHITE CITY - EAGLE POINT - GOLD HILL - AGATE LAKE - DODGE BRIDGE - SAMS VALLEY

»»» SPRING 2024 NEWSLETTER «««

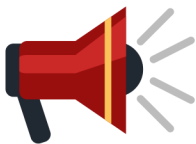

A MESSAGE FROM THE FIRE CHIEF

Our valley affords a beautiful springtime full of budding foliage and vibrant green fields. As the weather warms and the days become longer, many of us find ourselves outdoors, sprucing up our surroundings. Springtime yard work presents a unique relationship between fire prevention and the health benefits of physical activity. Activities such as removing flammable vegetation, mowing and creating Firewise landscapes require physical exertion, contributing to increased flexibility and improved cardiovascular fitness. Yard work offers the opportunity to reap the health benefits of physical activity and can be a fun way to involve kids in the outdoors.

It's essential to remain vigilant about building fire resilience while tending to the perimeter of our homes, landscapes, and gardens. Clearing dry leaves and debris, maintaining a defensible space and safely disposing of yard debris can significantly reduce the risk of fire impacting your home. By incorporating our free resources into your Spring cleanup, you will contribute to the safety of our communities while simultaneously improving your health and overall well-being. As we embark on this seasonal endeavor, let's remember to prioritize both the safety of our surroundings and the wellness of our bodies.

Mike Hussey
Fire Chief

MISSION

The mission of Jackson County Fire District 3 is to preserve quality of life and protect property through education, risk reduction, and emergency response services.

To reduce and eliminate risk from fire, rescue, and medical events in the communities we serve.

VISION

OUR COMMUNITIES

WHO WE ARE

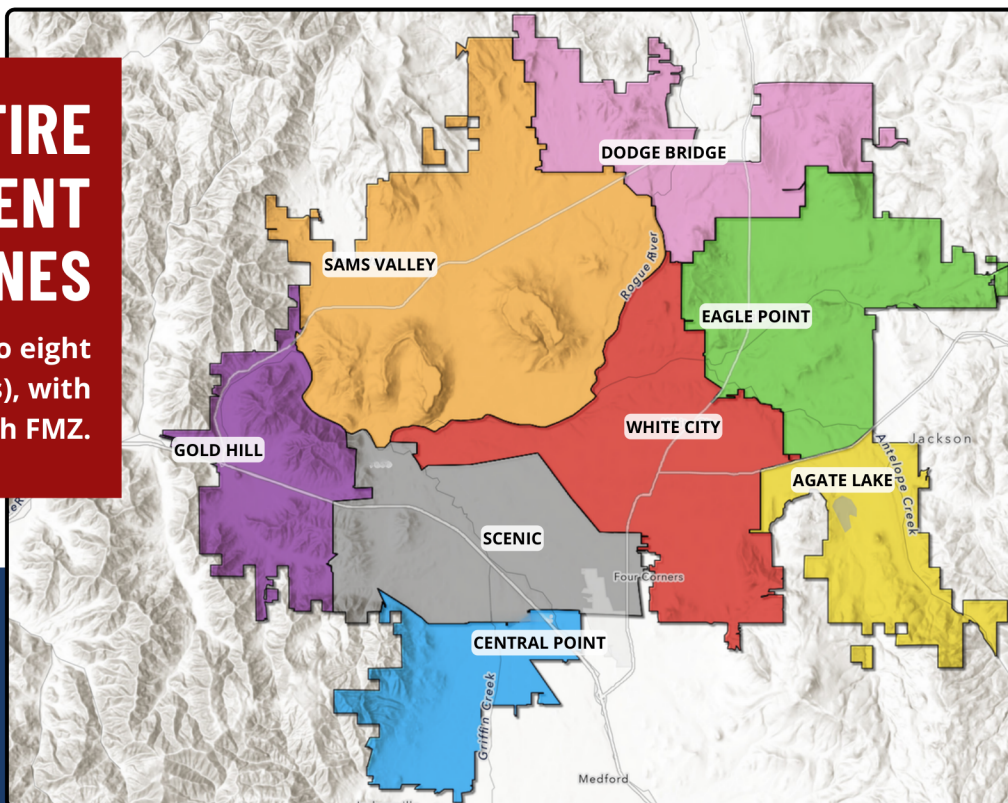

Fire District 3 provides fire suppression, emergency medical and rescue services, risk reduction, and community care to more than 57,000 residents living in the communities of Central Point, White City, Eagle Point, Gold Hill, Sams Valley, Dodge Bridge, and Agate Lake. The District's 67 full-time employees and 18 volunteers work from four career stations, four volunteer stations, and an Administration office to provide coverage to the 171 square miles that encompass the District.

Four career fire stations are located in Central Point (2), White City, and Eagle Point. These career stations are supervised by a Battalion Chief who is centrally based out of the White City station. Four volunteer fire stations are located in Gold Hill, Sams Valley, Dodge Bridge, and Agate Lake. These stations generate a response from resident volunteers who live on-site at the station property. Volunteers living in their own rural communities within the District also contribute to the emergency response.

Our Risk Reduction Division is staffed with a Fire Marshal, Risk Reduction Captain, and Deputy Fire Marshals who inspect commercial occupancies, conduct plans review for commercial construction, investigate all fires, and provide public education and risk reduction services. The division works closely with business and industry to promote growth and to assist them with meeting the requirements of the fire code and with the community to reduce risk.

FIRE MANAGEMENT ZONES

Fire District 3 is divided into eight Fire Management Zones (FMZ's), with one station located within each FMZ.

Check out our new Fire District 3 History page with a collection of old photos and history of the District!

WILDFIRE PREPAREDNESS

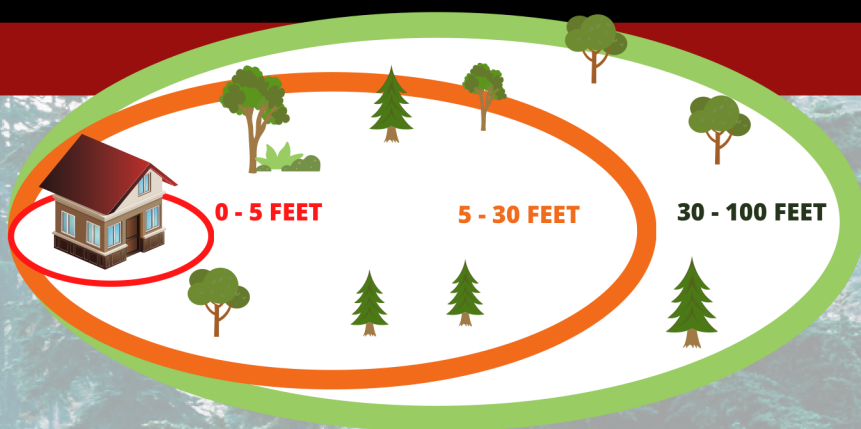

IT'S TIME TO START PREPARING FOR FIRE SEASON

Fire District 3 wants to help keep your property and loved ones safe. Having a defensible space and hardening your home by reducing or eliminating flammable vegetation is one of the best things a resident can do to protect their home from wildfire.

START GETTING READY FOR FIRE SEASON: CONTACT US FOR A FREE WILDFIRE HOME ASSESSMENT AND ACCESS OUR RESOURCES TO GET STARTED.

BURN PERMIT FIRE DISTRICT 3

2023 ANNUAL REPORT

The Annual Report highlights our response statistics, achievements, significant events, and emphasizes our commitment to serving the communities within Fire District 3.

2024 - 2027 STRATEGIC PLAN

The Strategic Plan aims to align our services and goals with the evolution of our communities, businesses, residents, and visitors. This will remain a dynamic document, responsive to budget constraints, opportunities, and changing circumstances.

COMMUNITY CONNECT

Sign up and securely share critical information about your household that will aid first responders. Users can enter mobility and access information, or details about family members and pets that live in the household.

PULSE POINT

A 911-connected mobile app which allows users to view and receive alerts on calls being dispatched and responded to by fire departments and emergency medical services. CPR certified responders can also be alerted to incidents happening near them.

COMMUNITY RISK REDUCTION & FUELS REDUCTION

COMMUNITY CARE

Our Community Care Team can assist you or a loved one with Aging at Home in place and navigating the healthcare system successfully. Efforts are made to reduce dependency on the 911 system for non-emergent needs and to help access tools that can assist with mobility and care.

Falls, slips, and trips account for a large percentage of our calls, and there are prevention methods we can help you with! Give us a call and ask for the Community Care Team.

FUELS DUMP TRAILERS

We have (2) dump trailers available for use by District residents - FOR FREE! The process is easy: sign up and get a free fire risk assessment at the same time. We leave the trailer, you fill it up, and we haul it off and dump it. There are restrictions to the material types we haul away.

COMMUNITY WOOD CHIPPER

We also have a wood chipper (courtesy of a grant provided by the Oregon State Fire Marshal's Office) that can be brought to your property or even a neighborhood for a day of wood chipping. The chipper is operated by District personnel.

DODGE BRIDGE & AGATE LAKE COLLECTION SITES

Our Dodge Bridge Station - located at 60 Rogue River Drive in Eagle Point - is open seasonally as a Wildfire Fuels Collection Site for green waste, tree limbs, and flammable vegetation.

New this year: we anticipate opening a second site at our Agate Lake Station (880 E Antelope Rd. Eagle Point).

Signs are posted when the sites are open and closed or you can call us to check.

JOIN OUR TEAM

>>> VOLUNTEER OPPORTUNITIES

We are looking for volunteers with wide-ranging skill sets! We have positions in Risk Reduction, Response, and Support Services and are looking for people who are passionate about serving our communities.

Some of our current volunteers help in the Administration Office, while others help with fuels reduction work.

“As you grow older, you will discover that you have two hands — one for helping yourself, the other for helping others.”

AUDREY HEPBURN

>>> CAREERS

All career opportunities are posted at www.jcfd3.com under “Join Our Team.” We also post openings on Social Media. Follow us on Facebook and Instagram to stay up to date!

Every bedroom needs to have a working smoke alarm!

Test alarms at least once a month by pushing the test button.

Some people, especially children and older adults, may need help to wake up. Make sure someone will wake them if the smoke alarm sounds.

10 Years

Replace all smoke alarms when they are 10 years old or if they do not sound when tested.

When the smoke alarm sounds, get outside and stay outside. Go to your outside meeting place.

Call 911 from a cellphone or a neighbor's phone. Stay outside until the fire department says it is safe to return inside.

¡Cada dormitorio necesita tener una alarma de incendios operativa!

Averigüe el funcionamiento de cada alarma mensualmente.

Los niños y los adultos mayores pueden necesitar ayuda para despertarse cuando suena una alarma de humo.

10 años

Reemplace todas las alarmas de humo cada 10 años, o cuando no suenen al momento de una prueba.

Cuando suena una alarma de humo, salga y quédese afuera. Diríjase hasta el punto de reunión exterior que se haya designado.

Llame 9-1-1 desde un teléfono celular o desde un teléfono de un vecino. Quédese afuera hasta que el departamento de bomberos indique que es seguro volver a la vivienda.
